- Microsoft PaaS Data Services like Azure Synapse Analytics, Azure Data Lake, Azure Data Bricks and Azure Data Factory

- Experience optimizing cost/capacity ratios, monitoring, and scaling of Azure Cloud Services

- Knowledge of cloud security controls including tenant isolation, encryption at rest, encryption in transit, key management, vulnerability assessments, application firewalls, SIEM, etc.

- Robust knowledge and Experience of working with ITIL processes and ISO 27001 security practices

- Experience in enabling SharePoint for on-premises hosting, load balancing and database clustering to ensure high availability for critical-uptime systems.

- On prem Database Administration skills include setting High Availability (HA) , Disaster Recovery (DR), Always On with SQL Server 2014 & 2016, 2019

- Administration and configuration of Web servers, like IIS, Ngnix, Apache and application servers,

- Content Management Systems (CMS) like OmniUpdate, WordPress and various portals like SharePoint and Liferay

EDUCATIONAL QUALIFICATIONS

Microsoft Certified Trainer Microsoft 2022

Master of Science in Information Technology,
SIKKIM MANIPPAL UNIVERSITY – INDIA, 2009

Bachelor of Science in Computer Science,
CALICUT UNIVERSITY – INDIA, 2001

SOFT SKILLS

- Good communication skills and sound aptitude in understanding business logic to provide optimal solutions.
- Project management skills for leading a team.
- Interpersonal and communication skills with an ability to interact at all levels.
- Strives to expand and acquire new knowledge and experiences.
- Quick learner, motivated, and work well with team members and under pressure.

TECHNICAL SKILLS

- Microsoft Azure , AWS
- Data Factory, Data Bricks, Azure Synapsis
- SharePoint Portal 2016 & 2019
- SQL Server 2014 ,2016 & 2019
- Java, Web Application Firewall
- Webservers like IIS, Nginx, Apache
- Virtualization, Datacenter Integration
- Server Management, LAN setups
- CMS like WordPress, Joomla & Omni Update
- Azure Kubernetes (AKS), Docker, Terraform
- Liferay Portal, SharePoint Portal
- Tools such as MS Project, Visio
- CentOS, Mac OS, Windows Servers
- GitHub, CI/CD, Pipelines
- ITSM tools like ServiceNow and Service Desk

TRAINING

- Azure Administration (AZ 104), Azure Machine Learning (AI-900), Azure Dev Ops (AZ 400), Azure Technical Architect (AZ 305), Azure Data Fundamentals (AZ 900), Azure Security Compliance and Identity (SC-900)
- Microsoft SharePoint Administration 2019
- Advanced SharePoint trouble Shooting and performance (From Microsoft)
- Microsoft Training for Administration of SQL Server 2014 And SQL Server 206
- ServiceNow, Service Desk Training
